May 29, 2001

TO: Minerals File

FROM: Lynn Kunzler, Senior Reclamation Specialist *Lyn K*

RE: Site Inspection, Western Clay Company Redmond Limestone Quarry, S/041/004, Severe County, Utah

Date of Inspection: May 23, 2001
Time of Inspection: 8:30 a.m.
Conditions: Clear, warm
Participants: Lynn Kunzler, DOGM

Purpose of Inspection: Document site conditions.

There was no activity at the site during this inspection. It appears that very little change has taken place since the last inspection.

The Division had requested an updated site information and map of the disturbed area on March 19, 2001 as preparation to update the reclamation bond (5-year renewal). Photos were taken of the disturbed area to document site conditions. The GPS was used to determine UTM coordinated for the site: North 4317351m, East 428131m
